Objective

I am a driven and results-oriented computer science graduate specializing in software development. With a solid foundation in Java, SQL, and modern web technologies like React and Angular, I excel in building innovative solutions. I am eager to contribute and grow in a forward-thinking environment.

Education

Savatribai Phule Pune University   08/2019 - 05/2023
Bachelor's of Computer Science

VidyaBharati College, Amravati   04/2018 - 05/2019
Higher Secondary School

Experience

ThunderCube Pvt. Ltd.   01-2023 - 06-2023
Internship

- Built and maintained web applications using Java, Spring Boot, Angular, and REST APIs.
- Collaborated with teams to deliver features in Agile sprints, managing both frontend and backend development.
- Deployed applications on cloud platforms andensured mobile-responsive design.

Codify Software Services   08-2023 - 09_2024
Intern

- Assisted in the development of Java-based web applications using Spring Boot and Hibernate.
- Collaborated with senior developers on backend features and bug fixes.

Scrimatec IT Solutions Pvt Ltd   01-2025 - 05-2025
Intern

- Developed basic RESTful APIs and handled database integration using MySQL.
- Assisted in coding, debugging, testing, and deploying applications in an Agile environment.

Skills

- Java •Spring Boot •Hibernate•Machine Learning •Html •Css •JavaScript •Bootstrap •Mysql •Angular •Blockchain •Angular •Git

Project

News Authentication

- A News Authentication project using machine learning aims to verify the credibility and authenticity of news articles by detecting fake or misleading content.
- Built a machine learning model that analyzes and classifies news articles as real or fake using various natural language processing (NLP) techniques.

E- Commerce Application

- Designed and developed a responsive e-commerce application using Spring Boot for the backend.
- Angular for the frontend, focusing on smooth navigation, secure authentication, real-time API integration, and streamlined order placement.
- Use SQL for database and React-Native forr App development.

Expense Tracker & Analytics

- Developed a full-stack personal finance management system that enables users to log and categorize income and expense.
- Set monthly savings goals, and visualize financial trends through dynamic charts and real-time analytics.
- Using technologies like Spring Boot, MySQL, and Chart.js for insightful data representation.

Certification

Oracle Certified : Java SE 8 Programmer

Hacker Rank : SQL Developer

Udemy : Java Developer
